General Index

**Denotes illustrated*

A

Advice to Young Engineers — Kennedy ... 152
Africa, Bringing Power to 90
Africa, Central, Future of 225
Africa, Energy Resources 249
America, Energy Resources 250
American Survey, An — Langbein *238
Analyser, A.C. Network 32
Asian Development 224
Asia, South-East, Scheme for 134
Atomic Energy 203
Australia, Energy Resources 250
Australia, Expansion in 225
Australia, Snowy Mountains 3
Australia, 20-Year Plan 91
Australian Projects 50
Austria, Water Power in — Steiner *112
Automatic Control of Turbines *131

B

Borehole Camera, Avimo 260
Brazil, Hydro-Electric Expansion in—Johnson *39
British Columbia, Developments in *121
British Council and the Sciences 257
British Isles, Energy Resources 247

C

Canada, Developments in 1949 ... ... *117
Canada, Seton Lake Plant 50
Canyon Ferry Diversion *263
Castelo do Bode Scheme *93
Ceira Dam *154
Chausey Islands Tidal Scheme *19
China, Building a Dam in *221
Civil Engineering Maintenance — Warnock ... *206
Clunie Hydro-Electric Scheme *20
Clunie Power Station *102
Concrete for Dams — Tomlinson and Trower *79
Columbia River, McNary Dam *220
Conférence Internationale des Grands Réseaux Electriques *162
Conference, Joint Engineering 3
Conference, World Power 247
Convention, British Electrical Power ... 134

D

Damodar Valley Loan 135
Dams, Concrete for — Tomlinson and Trower *79
Design of Transmission Systems — Morgan ... *32
Drum Gates, Clunie *24

E

Earth Moving Equipment *130
Efficiency Formulæ for Turbines — McDonald *237
Electrical Control and Protective Gear ... *251
Electrical System Protection *253
Energy Resources of the World 199
Energy Resources of the World 247
Engineering Centre in London, Proposed ... 224
Europe, Electrical Equipment for 50
Europe, Energy Resources 248
Expansion Joints, Large *177

F

France, Hydro-Electric Production in — Ferry *77
France, Modernisation of Hydro-Electric Plants in — Ferry 259
Francis Turbines, Performance of — Tessari *108
French Schemes — A Pictorial Survey ... *72
French Tidal Projects — de Vos *14

G

Geological Surveying — Richey *67

H

High Heads, Francis or Pelton for *176
Honduras, Rio Lindo Surveyed 3
Hungary, Water Power in *176

I

Iceland, Developments in *123
India, Energy Resources 250
India, Hydro-Electric Developments in — Sieveking *60
India, Major Schemes in 2
India: Report of Central Electricity Commission 2
India, Weather Research 134
Ipswich Engineering Society 51
Ireland, Pollaphuca Station *243
Israel, A Power Plant for 3

J

Japan, Tamadi River Development 51
Joints, Expansion, Large *177

K

Kaplan Blades, Aero Theory Applied to ... 111

L

Loch Sloy *100, *185
Lumiei Dam and Power Station — Semenza *144

M

Maintenance, Civil Engineering *206
Measuring Tanks, Improvements in *262
Missouri Diversion *263
Missouri River Basin — Baumhoff *5
Model for Temporary Diversion *131
Models, Use of for Power Plants *178
Modernisation of Hydro-Electric Plants in France — Ferry 259

N

New Guinea, Prospecting in 135
New Unit for Old Plant *222
New Zealand, Developments in 3
New Zealand, Power Needs of 225

O

Ontario, Developments in *121
Ontario, Developments in 183
Owen Falls Scheme 90

P

Pakistan, New Barrage 90
Pakistan, Power Supply in 2
Penstock, Pralognan Falls *261
Performance of Francis Turbines — Tessari ... *108
Philippines, Power Projects in 135
Pipe Lines, Pressure — Ferrand *53
Pitlochry, Problems at — Brown *174
Planning, Long Term 50
Pollaphuca Station, The *243
Portugal, Developments in the Serra da Lousan — Morgan *154
Pralognan Falls, Penstock *261
Prediction of Water Behaviour 179
Press, Trade and Technical 50
Pressure Pipe Lines — Ferrand *53
Pump Storage Systems — Voska ... *137, *209
Pyrenees Project 183

R

Rance Tidal Scheme *18
Resources, World's Energy 199
Rhodesia, Hunyani Poort Dam 3
Rhodesia, Investigations in 160
Rio Lindo Surveyed 3

S

Scandinavia, Energy Resources 247
Schori Process *203
Scotland 1
Scotland, Clunie Dam and Power Station *20, *102
Scotland, Future Schemes for 182
Scotland, Industrial Future of the Highlands 205
Scotland, Sloy *100, *185
Scottish Scheme, Clunie *20
Serra da Lousan Developments — Morgan ... *154
Seton Lake Plant 50
Severn Tidal Power Scheme 182
Sloy Station Opened by H.M. The Queen ... *224
Snowy Mountains Scheme 3
Spain, Water Power Developments in — Hammond *44
Stability of Power System 34
Stazzona Project *230
Surveying, Geological — Richey *67

T

Tasmania, Power Generation in 91
Tidal Power, Severn Scheme 182
Tidal Projects, French — de Vos *14
Transmission Line Characteristics 35
Transmission Systems, Design of—Morgan ... *32
Transport, Tests for 225
Tummel-Garry Project ... *20, *102, *174
Tunnelling Equipment, Notes on—Hammond 126
Turbine Efficiency Formulæ — McDonald ... *237

U

Uganda Scheme 125
Underground Power Stations — Gallioli ... *227
Underground Station, An — Semenza ... *144

V

Venezuela, Prospects in 51
Volga Schemes 225
Volta River Survey 183

W

Wales, Schemes for 183
Water Resources, Great Britain 91
World's Energy Resources *247

Y

Ybbs-Persenbeug Scheme — Jaeger *37

Z

Zezere Hydro-Electric Scheme *93

Editorial Articles

Discussions 49
Finance 133
Peak Loads 181
Prediction 223
Scotland 1
Weather 89

Book Reviews

Applied Hydrology — Linsley 41
British Council's Report 42
Electrical Engineers Reference Book—Molloy 42
Hydraulics and the Mechanics of Fluids — Lewitt 42
Hydro-Electric Handbook—Creager & Justin 256
Hydrographical Bases of the Plants and Projects of the Ill Water Power Undertakings — Kieser 258
Lexique Technique Francais-Anglais and Anglais-Francais Concernant le Materiel de Travaux Publics 257
Praktische Energiewirtshaftslchere — Musil ... 122
Technische Hydraulik — Jaeger 41
Wasserkraftmaschinen und Wasserkraftanlagen — Keyl-Häckert 257

Correspondence

Multiple Arch Dams — Poppins 59
